

Insurance and Legal Services

Providing specialist technical support to legal and insurance partners, Cobra's studies service offers access to a wealth of appropriate industry experience to help all stakeholders protect their investments.

Insurance follows assurance

Every facility is unique, even with rigorous design standards and regulated operations, there are many variables, location, layout, process requirements and operating conditions can all vary considerably. Fortunately, our experience is every bit as diverse as the assets we support.

With a strong safety culture it follows that we do everything we can to protect our people, this in turn means we are diligent in protecting the assets they work on and mitigating any risks. We use this experience to assure our customers that their asset is in safe hands, this detailed approach can be applied to insurance and legal issues for assessing claims, analysing risks and estimating premiums.

Our support services in this area include:

- Technical and commercial assessments
- Inspection, quantification and costing
- Loss Quantification & Evaluation
- Property Damage Cost Reviews
- Loss investigation
- Technical support on business interruption insurance losses
- Review and advice on re-instatement strategies
- Cause investigation studies
- Expert witness
- Programme Reviews

Wide ranging experience

Delivering operational excellence in all corners of the world, our experience covers many key markets and sectors as well as a variety of asset types and formats.
